DETAILED ACTION

Election/Restrictions

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1-25 , drawn to a MIM capacitor plate and a MIM capacitor, classified in class 257, subclass 200+.
- II. Claims 26 -31 , drawn to a semiconductor device , classified in class 257, subclass 400+.
- III. Claims 32-40, drawn to a method of making a semiconductor device , classified in class 438, subclass 424.

The inventions are distinct, each from the other because of the following reasons:

Inventions III and I and II are related as process of making and product made.

The inventions are distinct if either or both of the following can be shown: (1) that the process as claimed can be used to make other and materially different product or (2) that the product as claimed can be made by another and materially different process (MPEP § 806.05(f)). In the instant case the second material of claim 32 could be formed by nitriding in a nitriding gas rather than by deposition, for example.

Invention II does not seem to have the same limitations as inventions I and III, in that claim 26 does not recite the limitations of inventions II and III on the MIM capacitor recited in claim 26, while also reciting further structural limitations different from and in addition to those of invention I.

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
